

CV - Alexey Gornostaev

👋 Hi, I'm Alexey. I'm a product manager and producer in video game space with 10+ years across development, publishing, and media.

✉️ **Contacts**

- hey@lyosha.net
- lyosha.net

⚙️ **Skills**

- 0→1 product development
 - Market research
 - Prototyping & MVP definition
 - Setting scope and roadmap
 - Managing development
 - User testing and analytics
- AI-augmented workflows
 - Daily product work: automated follow-ups and docs, generated analytics summaries, localized product content, and converted data formats.
 - Built lightweight internal tooling using Claude API (dashboards, automation scripts). Example: [Steam genre research](#).
 - Technical skills: unix shell, Git, Docker, Chrome DevTools, basic HTML/CSS, SEO, Google Analytics/Mixpanel.
- Video game domain knowledge
 - Experience shipping on Steam, iOS, Android, and HTML5/web platforms.
 - Background in games media (5M MAU) and discovery (500K+ titles catalogued).
 - Comfortable reading market analytics (Steam, NewZoo, GameDiscoverCo, Steamdb).

🎓 **Education**

- A degree in computer and information technologies in economics (Moscow Aviation Institute)

Languages

- English (B2 level)
 - Russian (native)
-

Experience

Herocraft - a video game developer and publisher

Producer, Oct 2024 - Present

- Sole producer on 3 indie PC titles simultaneously, working with small teams (under 5 people) from Early Access through to 1.0.
- Own the full product cycle: scouting, playtest planning, roadmap, and release.
- Track core metrics set - wishlist additions, median playtime, NPS, drop-off points, in-game funnels, and unit/item usage - to drive development priorities.
- Portfolio: [Chronocracy](#), [Sin & Siege](#), [Victory Banner](#).

RAWG - a video game discovery startup / html5 games platform

Co-founder / Product Lead, Nov 2016 - 2023

- Led product strategy and product development at video games discovery service (500K+ titles). Announcement post: [You Have Nothing to Play](#).
- Managed the development of the [public API](#) used by Unity, Newzoo, Blur and Yandex.
- Managed the development of an SDK with auth, monetisation and site integration features for html5 game developers for the CIS market.

Gather - esports tournaments platform

Product Management Consultant, Apr 2020 - 2021

- Consulted on product development a US-based startup developing an online tournaments platform.
- Managed day-to-day delivery guiding the product from zero to MVP launch.
- Contributed gaming/esports domain expertise to inform product direction.

- Example case study: Making group competition flow more simple and efficient.

Rambler Games - a leading entertainment media in CIS

Product Manager, Jan 2013 - Nov 2016

- Sole PM on a 5-person dev team at one of the leading games media properties in the CIS market.
- Led a site wide redesign focused on mobile responsiveness and SEO, capitalizing on the shift in search traffic from desktop to mobile.
- Contributed to doubling MAU to a high point of 5M monthly visitors.
- Shipped UGC features to drive community engagement.

Game Insight - a video game developer and publisher of mobile and social games

Project Manager, Jan 2012 - Jan 2013

- Worked on a mobile webview in-game marketing and support platform.
- Led a team that released iOS/Android SDK and server backend services.
- Integrated SDK into 18+ iOS and Android titles (millions of MAU).

Kanobu.ru - an entertainment media startup

Project Manager, Aug 2011 - Jan 2012

- Led creation of a video game digital distribution service for the CIS market.
