⚙️ Skills

- 0→1 product development
  - Market research
  - Prototyping & MVP definition
  - Setting scope and roadmap
  - Managing development
  - User testing and analytics
- AI-augmented workflows
  - Daily product work: automated follow-ups and docs, generated analytics summaries, localized product content, and converted data formats.
  - Built lightweight internal tooling using LLM APIs (dashboards, automation scripts). Examples: Steam Wishlist Dashboard, Steam Genre Research.
  - Technical skills: unix shell, Git, Docker, Chrome DevTools, HTML/CSS, SEO, Google Analytics/Mixpanel.
- Web & platform product experience
  - Experience shipping on HTML5/web, Steam, iOS and Android platforms.
  - API/SDK product management.
  - Analytics-driven iteration.
  - Experience building content/discovery platforms.

🎓 Education

- A degree in computer and information technologies in economics (Moscow Aviation Institute)

🌐 Languages

- English (B2 level)
- Russian (native)

Experience

Herocraft - a video game developer and publisher
Producer, Oct 2024 - Present

- Sole producer on 3 indie PC titles simultaneously, working with small teams (under 5 people) from Early Access through to 1.0.
- Own the full product cycle: scouting, playtest planning, roadmap, and release.
- Track core metrics set - acquisition, retention, and engagement metrics (wishlist additions, median playtime, NPS, drop-off points, in-game funnels) to drive development priorities.
- Portfolio: Sin & Siege, Chronocracy, Victory Banner.

RAWG - **co-founded** a video game discovery startup / html5 games platform
Product Lead, Platform & API, Nov 2019 - 2023

- Led a small team developing the public API (500K+ titles) used by Unity, Newzoo, Blur and Yandex.
- Designed a freemium API pricing model with paid tiers for higher-usage customers.
- Managed the development of a html5 game distribution SDK and storefront for 3rd party developers (auth, monetization and site integration features).
  Product Lead, Consumer Discovery Platform, Nov 2016 - 2023
- Led product strategy and product development at video games discovery service (500K+ titles). Announcement post: You Have Nothing to Play.
- Built community and content features (reviews, ratings, lists) that drove ~30 ratings per registered user on average - a great engagement rate for a discovery platform, where most registered users typically never leave a single review.
- Owned SEO and content strategy.

Gather - esport tournaments platform
Product Management Consultant, Apr 2020 - 2021

- Consulted a US-based startup on product development.
- Managed day-to-day delivery guiding the product from zero to MVP launch.
- Contributed gaming/esports domain expertise to inform product direction.
- Example case study: Making group competition flow more simple and efficient.

Rambler Games - a leading entertainment media in CIS
Product Manager, Jan 2013 - Nov 2016

- Sole PM on a 5-person dev team at one of the leading games media properties in the CIS market.
- Led a sitewide redesign focused on mobile responsiveness and technical SEO, defining scope and specs for the team - restructured site architecture and page templates to capture the shift in search traffic from desktop to mobile.
- Drove mobile traffic share and search rankings up as a direct result, contributed to doubling MAU to a high point of 5M monthly visitors.

Game Insight - a video game developer and publisher of mobile and social games
Project Manager, Jan 2012 - Jan 2013

- Worked on a mobile webview in-game marketing and support platform.
- Led a team that released iOS/Android SDK and server backend services.
- Integrated SDK into 18+ iOS and Android titles (millions of MAU).

Kanobu.ru - an entertainment media startup
Project Manager, Aug 2011 - Jan 2012

- Led creation of a video game digital distribution service for the CIS market.
